The day we met, I was sure that was our first and last goodbye
Cause everyone knows that lightening never strikes the same place twice
So I m still trying to figure out why, you showed up so soon
Cause after all I m forever Earthbound,
And you re The Man on the Moon

Should ve seen this coming,
Shouldn t you be running, out the door?

Filled with question marks
Don t know who I am
And I hate to be alone

How could you love someone like this?
You must think I m a lunatic
I don t say the most appropriate things
And my words can be cold as stone
How could you love someone like this?
You must think I m a lunatic
