

Starting From Now
Catherine McGrath

[Verse 1]

I know I said it last time
But this ll be the last, last time
No more little white lies
Like it s only gonna be one more night
Gonna read the warning signs
Gonna stop running red lights
I m laying it down, shutting you out
Starting from now

[Verse 2]

You know you had your last chance
Like twenty one chances ago
How d you fool me like that?
Could ve sworn I d let you go
Don t you know how hard it is
Trying to give you up like this
Forgetting your name, all over again
Starting from now

[Chorus]

Starting from now, I don t answer your call
Starting from now, I don t open that door
We both know you re coming over like you did six times before
Starting from now, won t let you back in
Said it before, but this time I mean it
