

Time Go  
Caught A Ghost

Intro

Am C G Dm

Am C  
Iâ€™m in need of the answer, in search of the question, in love with  
being broken-hearted  
G Dm  
Days race by faster, itâ€™s a made-up lesson, and Iâ€™m lost before I started  
Am C  
A little white lie, a big black sky, an emptiness open on the dashboard  
G Dm  
I feel a lack of self, and itâ€™s someone else, telling you to try, where you  
failed before

Chorus

Am C  
Where does the time go?  
G  
I donâ€™t know  
Dm  
Itâ€™s movinâ€™ underneath me  
Am C  
Like Iâ€™m moving in slow-motion  
G  
I reach out though  
Dm  
it passes too quick&#65279; to see me  
  
Livinâ€™ on the back nine, livinâ€™ out your past life, tryinâ€™ to make a livin  
as an outlaw  
But the problem you see, stealing ainâ€™t what it used to be, everyoneâ€™s used  
to it by now  
You back-up your gun, make your best run, your faking isnâ€™t breaking any new  
ground  
But is there such a thing, watching the rain wash away everything you thought  
youâ€™d found?

Where does the time go?  
I donâ€™t know  
Itâ€™s movinâ€™ underneath me  
Like Iâ€™m moving in slow-motion  
I reach out though  
it passes too quick&#65279; to see me

I think that this could be the last one Jimmy

Why don't you come and take this last one with me?

I gotta say that it's good to be home

Sometimes I miss you when I'm out there alone

So come around some time, clear your mind, it's getting harder as the weeks slip away

We can turn on a dime, pass you a while, while you wait for the truth to come your way

Your time will come if you let it be right, if you let it be right

Your time will come if you let it be right, if you let it be right

Your time will come if you let it be right, if you let it be right
