[Intro] **C9 G**
        C9 G

C9   **G**
I m not really sure if my words make sense to you
But I can t really find
C9   **G**
Any other way to form these feelings into cubes
And sort them in my mind
C9   **G**
The negative thoughts go on the left
And the happy things on the right
C9   **G**
And there s a little corner saved just for you
Em   **C9**
Please let me know if you change your mind
Cause inside I m falling
G   **D**
And I need you to pull me out of this decline
Em   **C9**
I realise how hard on you this must seem
But trust me
        G   **D**
When I say its far, far worse for me

G   **C9**
Please, please be here for me dear
Cause I ve never needed a friend more
     Em   **C9**
And I cant stress enough how much it means to me that you re trying
G   **C9**
And I don t mind if you can t hold me like you used to
                   Em
Cause I ve never hated myself more
                       C9
But this is just a bump in the road and I promise I m trying

(**G C9**)
(**G C9**)

C9   **G**
Give me a moment to get my cards in line
Cause I m still trying to figure out
C9   **G**
In what kind of order I should set them out
C9   **G**
If there was a way to explain everything without a word

```
C9                                              G
I d have a full house right now without a doubt
Em                                              C9
I m trying to tear the wool from your eyes
                                        G
But a part of me wants to let you be
                                          D
Cause then you wouldn t see what I ve become
Em                                              C9
I m trying to shout but no sound comes out
It s like we re in a dream state
          G                               D
But I should ve woken up, woken up by now

G                             C9
Please, please be here for me dear
Cause I ve never needed a friend more
     Em                              C9
And I cant stress enough how much it means to me that you re trying
G                                   C9
And I don t mind if you can t hold me like you used to
                    Em
Cause I ve never hated myself more
                  C9
But this is just a bump in the road and I promise I m trying

(  G   C9  )
