

**I Changed My Name**  
**Chad VanGalen**

**G** **F** **A# D G**

i changed myname  
i changed my number  
this world is insane  
all sick in the brain

**G**  
saw the blood in the river

**F**  
flames in the sky

**G**  
animals were running

**F**  
everyone was running

you twisted our fingers  
round a couple broken chords  
and i still feel strange  
it aint ever gonna change

**C**  
how are we gonna say were sorry  
how are we gonna say goodbye  
how were gonna say were sorry this time

i changed my name  
i changed my number  
cause this world is insane  
fucked up in the brain
