Don t go looking for me girl, you ve got to go on

**D** **F**  
Don t think he s taking to you, he s just on the TV

**C** **G**  
Well, look past the Easter Egg and see the reality

**D** **F**  
A world of time and space inside a funny blue box

**C** **G** **G** **G**  
The angels are approaching and the front door is locked

So don t blink,

**D F C G**

**D** **F** **C** **G**  
Just look directly at them and they ll stay where they are

**D** **F** **C** **G**  
I think they re crying anyway, they can t mean no harm

**D** **F** **C** **G**  
My eyes are watering, I m right on the brink

**D** **F** **C** **G**  
I m sure nothing would happen if I were to...

(REPEAT INTRO RIFF)

The Doctor isn t here this time this won t be a breeze  
He s stuck in 1969 on your DVDs  
Just listen very carefully to what he s got to say  
Do not turn your back on them and don t look away

If they get inside the TARDIS then the sun will go out  
Just go down to the cellar and show them what you re about  
They move faster than you could ever believe  
Don t let the light go out and don t be naïve

[BRIDGE]

[CHORUS]

**D** **F** **C** **G**  
The future s coming quickly, so please don t be scared

**D** **F** **C** **G**  
The answers will find you, just make sure you re prepared

**D** **F** **C** **G**  
When you see the Doctor then you ll work out the link

**D** **F** **C** **G**  
But even though it s ended please be sure not to blink
