

**Friends Of The Ood  
Chameleon Circuit**

Intro: 2x **B C#m E F#**

**B** **C#m**  
As the sun comes up on another day  
**E** **F#**  
And the bright light drifts into our mutual mind  
**B** **C#m**  
I start to sing without any disarray  
**E** **F#**  
And I broadcast my melody, via Basic 5  
**B** **C#m**  
Everybody starts to sing with me  
**E**  
The wind whistles across the snow  
**F#**  
But it won't affect our psychic flow  
**B** **C#m**  
On this planet we are free  
**E** **F#**  
The circle is broken, and we've cleared the debris

**B** **F#** **E** **F#**  
Cause being an Ood, is better when you're free  
**B** **F#** **E** **F#**  
I can sing all day now I'm out of captivity  
**B** **F#** **E** **F#**  
Running through the snow with my brain in my hands  
**B** **F#** **E** **A**  
I feel like your song is coming to its end, oh

**B** **C#m**  
It's hard to think about what's happened to my kin  
**E** **F#**  
Once an empty slave race, but now thinking again  
**B** **C#m**  
It's such a shame that all those humans couldn't quite construe  
**E** **F#**  
We aren't just a reflection, we're just the same as you  
**B** **A**  
So throw away your credits, and give us our free will  
**E** **F#**  
We know we're a bit ugly but we're friendly as hell  
**B** **C#m**

Hopefully without us you won't pine away and die

We want to live our own lives now, at least let us try
