Chameleon Circuit " Mr. Pond

Capo on 3rd fret

Am **E** **C**
It s not the way she looks at you,
 D **Dm**
Like you re the first man in her life,
 Am
Because I know Amy s true,
 E
And when we re through she ll be my wife.
Am **E** **C**
I know you save the universe,
 D **Dm**
She paints you in perfect lights,
 Am **E**
Though I may be just a nurse,

The Doctor isn t always right.

C **D** **C** **D** **Am** **E**
You ve got no idea just how dangerous you make people to themselves.

Am
Cause I want to be Mr. Pond,
 E
And I can t lie and say that I m fond
 C
Of the way you ve been hurled into our world,
 D
Now that you ve saved the day, why don t you fly away?
 Dm
Cause I want to be Mr. Pond,
 Am
But there s so many things that could go wrong
 E **E7**
In your time machine that you just don t see,

Why can t she see?

She s never said that she loves me,
But she ll still risk her life for you
And in your company it seems to me
That s all she ll do.
Well I guess it s Amy s choice,
And I know I can t over rule her,
But I ve hardly had a voice,
And I don t want to lose her.

You ve got no idea just how dangerous the world is when you re around.

Cause I want to be Mr. Pond,
And I can t lie and say that I m fond
Of the way you ve been hurled into our world,
Now that you ve saved the day, why don t you fly away?
Cause I want to be Mr. Pond,
But there s so many things that could go wrong
In your time machine that you just don t see.

C **E**

Why can t you see what you re doing to Amy?

Am **E**

If you keep putting her in danger, you re going to get her killed!

Cause I want to be Mr. Pond,
And I can t lie and say that I m fond
Of the way you ve been hurled into our world,
Now that you ve saved the day, why don t you fly away?
Cause I want to be Mr. Pond,
But there s so many things that could go wrong
In your time machine that you just don t see.
