

**Dram Sings Special
Chance the Rapper**

Note:

I made an account purely just because the one tab on here felt so off. This is a lot of guesswork on my end but sounds good to the ear. In terms of the Abm/B-5 thing, I tried to reverse look it up but can't find an appropriate name for the chord. An Abm will work in a pinch, but if you really want it to sound good on piano I recommend:

Left hand: Ab // Right hand: F B Db

(I'm dumb and don't know what guitar chord this would be but it's lovely)

Anyway, please enjoy
