Let The Meter Run
Charlie Mars

```
G#                                      Eb          G#
I know you want me, but you donâ€™t want me to know
C#                              G#          Eb
I know you need me, but youâ€™re afraid to show me
G#                                      Eb          G#
If youâ€™re in the darkness, and youâ€™re full of doubt
G# (stop)
I want you know, I want you to know
                C#
That you can make it through the heartache
                       G#          Eb
You can make till the stars come out
     C#      Eb
Oh, uh
Put your head on my chest and,
G#       Eb      G#                              C#
Listen, listen, listen, listen to that beet hey
G#               Eb              G#m
Donâ€™t listen to me, I donâ€™t know nothing baby
No I donâ€™t
G#                                      Eb          G#
Maybe we can make up with that voice in your head
C#
Take it out for a drink
                G#                      Eb
Maybe we could tie it up to the bed
G#                                      Eb          G#
If youâ€™re in the darkness, and youâ€™re full of doubt
G#
I want you know, I want you to know
                C#
That you can make it through the heartache
                       G#          Eb
You can make till the stars come out
     C#          Eb
Oh, uh
Put your head on my chest and,
G#       Eb      G#                              C#
Listen, listen, listen, listen to that beet hey
G#               Eb              C#
Donâ€™t listen to me, Iâ€™m just acting like I know
        Eb                              G#
Always putting on a show for you Dora Lee
Fm          Eb                      G#          C#
We can buy 2 tickets, yeah we can let the meter run
Fm                  Eb                      C#
We can lie around waiting for a light to come
```

Eb
Oh, ṗut your head on my chest and
G#   **Eb**   **G#**   **C#**
listen, listen, listen to that beet hey
G#   **Eb**   **C#**
Donâ€™t listen to me, Iâ€™m just acting like I know
              Eb   **G#**
Always putting on a show for you Dora Lee
