Let The Meter Run
Charlie Mars

```
F#                                  C#          F#
I know you want me, but you donâ€™t want me to know
B                       F#          C#
I know you need me, but youâ€™re afraid to show me
F#                                  C#          F#
If youâ€™re in the darkness, and youâ€™re full of doubt
F# (stop)
I want you know, I want you to know
                B
That you can make it through the heartache
                   F#          C#
You can make till the stars come out
     B    C#
Oh, uh
Put your head on my chest and,
F#        C#        F#                        B
Listen, listen, listen, listen to that beet hey
F#            C#              F#m
Donâ€™t listen to me, I donâ€™t know nothing baby
No I donâ€™t
F#                                  C#          F#
Maybe we can make up with that voice in your head
B
Take it out for a drink
                F#              C#
Maybe we could tie it up to the bed
F#                                  C#          F#
If youâ€™re in the darkness, and youâ€™re full of doubt
F#
I want you know, I want you to know
                B
That you can make it through the heartache
                   F#          C#
You can make till the stars come out
     B        C#
Oh, uh
Put your head on my chest and,
F#        C#        F#                        B
Listen, listen, listen, listen to that beet hey
F#            C#              B
Donâ€™t listen to me, Iâ€™m just acting like I know
        C#                        F#
Always putting on a show for you Dora Lee
Ebm          C#                  F#              B
We can buy 2 tickets, yeah we can let the meter run
Ebm              C#                    B
We can lie around waiting for a light to come
```

C#
Oh, ṗut your head on my chest and
F#   **C#**   **F#**   **B**
listen, listen, listen to that beet hey
F#   **C#**   **B**
Don't listen to me, I'm just acting like I know
              C#   **F#**
Always putting on a show for you Dora Lee
