G E A

We know that we will always be around

Sometimes its hard to remember

 That youre even there

C 

But when I feel Im being hated 

G F

Feeling lonely in December

 Facing hardships that we cant bare

C G F 

Youll help me come through the other side 

C G F

You build up my confidence, and raise my pride

C G F

 Together theres nothing that we cant face 

C F G

Just as long as we embrace ourselves

C 

Its just a shame that I hate you

G F

Oooh

C G F D

I hate you

C G

You're insufferable, your acnes terrible 

F G

Your sunny dispossession is completely unbearable 

C G

And worst of all, you've got no friends

**F G **

They're just on the internet

**F G **

You're a waste of space, you've got no life

**F G **

Got a mole on your face, you should take a knife

**C G **

To your head

F G

and do it before I do it instead

C G

You're that perfect either, mate 

F G C

In fact you're way too easy to hate

G F G

 What 19 year old can't get a date

C G F

I guess it's fate, that you'll never find a soul mate 

G C G

You're going to die alone, on your own

F G
