You ve been running round, running round, running round throwing that dirt all
on my name
           A#m                               B
Cause you knew that I, knew that I, knew that I d call you up
             D#m                                    C#
You ve been going round, going round, going round every party in LA
             A#m                                     B
Cause you knew that I, knew that I, knew that I d be at one

D#m                         C#
I know that dress is karma, perfume regret
    A#m                                   B
You got me thinking about when you were mine
D#m                         C#
And now I m all up on you, what you expect
     A#m                                B
But you re not coming home with me tonight

           D#m
You just want attention
               C#
You don t want my heart
             A#m                                 B
Maybe you just hate the thought of me with someone new
                  D#m
Yeah, you just want attention
             C#
I knew from the start
                 A#m                         B
You re just making sure I m never gettin  over you

      D#m                                                C#
Baby, now that we re, now that we re, now that we re right here standing face to
face
        A#m                                       B
You already know, already know, already know that you won

D#m                          C#
I know that dress is karma, perfume regret
     A#m                              B

D#m                              C#
  What are you doing to me? What are you doing, huh?
A#m                       B
  What are you doing to me? What are you doing, huh?
D#m                              C#
