

Empty Cups  
Charlie Puth

Oh, the way that you dance on me makes me not wanna leave

You wanna go upstairs but you don t wanna sleep

Oh, right now we re in a rhythm

Your boyfriend s no competition

Turn off your phone and blame it on your battery, hey

A B C#m D#

Oh-oh-oh-oh

We re getting real, real close

A B C#m D#

Oh-oh-oh-oh

Can t let this moment go

As long you party like there is no one at the party

Just me and you and these empty cups

If you want it like I want it

Let me take you to another room

So it s only us

Turn my television up so nobody can listen

As long you party like there is no one at the party

Just me and you and these empty cups

Oh, girl, do you think they ll notice if we slip away?

Maybe tomorrow they ll all have something to say

Oh, right now we re in a rhythm

We don t need no one s permission

End of the night don t mean we gotta separate
