SUNDOWN - Charlie Simpson

---

Tabbed by: Mono

Email: bowdowntothemono@hotmail.co.uk

Tuning: Standard (EADGBE)

Yeah, so I've already tabbed Down Down Down, so I thought I'd have a crack at Sundown.

Just fiddle around with these chords, there are lots of hammer ons and pull offs throughout.

CAPO 6

Intro:

**C F** x2

Verse:

**C C F F** x2

God I've seen your dreams and they were filled with darkness  
And your eyes turned white in the bright lights  
I know there's torment in your heart  
It's swimming round your body like a shark

Pre-Chorus:

**Em G F C** x1.5 (strum the G for longer last time)

Can you not see me anymore?  
Or are you not just hiding beneath the floor?  
Cos I can't feel empty anymore

Chorus:

**C Am7 Em Em C Am7 Em G G**

Just hide your heart anywhere, please hide your heart anywhere from me  
'Cause I'm just not ready for, no I'm just not ready for, all this

Interlude (same as Intro)

Verse

I just throw a stone into the wishing well  
Walk down to the water's edge and push me into the swell  
As I walk down the stairs to face another day  
I don't think I drank enough to make your face go away

Pre-Chorus

Cos I have been waiting here from the start  
Hoping the sunlight would rise through the dark  
Cos my heart is yearning for you dear

Chorus

Just hide your heart anywhere, please hide your heart anywhere, from me  
Iâ€™m just not ready for, Iâ€™m just not ready for, all this

Bridge:

**F C G G F C Am7 C G G**

The nights are so cold and Iâ€™m breathing you in  
Thereâ€™s blood on the streets and itâ€™s darker than sin  
I donâ€™t know where Iâ€™m going  
I donâ€™t wanna know anyway  
I just need you here

Outro:

**F-Am7 C x4**

Cos you are my sundown  
You are my sundown  
You are my sundown  
You are mine.

Finish on **C**.

Thar you go, really looking forward to this album when it comes out!
