

**Love Me For Me**  
**Cher Lloyd**

This is my first tab. And Im not an amzing guitar player either so bare with me.

For the verses i use D D -zick- no sound for like a sec then U  
And for the chorus I use a more full on strum which I dont really have time to  
write down. I might put it in later  
(I was taught to call this smacking sideways motion a zick. Not sure what the  
proper word is)

[Verse 1]

**G**

Phone rings  
Don t wanna pick it up

**D**

I m so scared  
I m gonna say too much

**Em**

I tip toe around your questions

**C**

Why you gotta dig so deep?

**G**

Tears fall  
And the glasses break

**D**

Inside these walls  
The floor boards shake

**Em**

From outside  
It s alright

**C**

Long as you looking from fifty feet

[Pre-Chorus]

**Em**

I been trying trying  
Hold my head up high

**C**

I been lying lying  
Keeping it all inside

**G**

Trying not to trust you, yeah

**D**

Take another leaf, I m a book yeah yeah?

[Chorus]

**G**

I m done, I give up

**D**

I don t wanna pretend no more

**Em**

That s it, so what

**C**

I ve lost a friend before

**G**

Gonna say it like it is

**D**

No more wondering what if

That ain t the way you oughta live

**Em**

Cause I don t want you to love me

**C**

If you don t wanna love me for me

**G**

**D**

Cause I don t want you to love me

**Em**

**C**

If you don t wan love me for me

[Verse 2]

**G**

A doll house is all that you could see

**D**

But it s so far from my reality

**Em**

I got problems, I got issues

**C**

Sometimes it s all too much for me

**G**

Wrap it up with a pretty little bow

**D**

But there are some things you can t sugarcoat

**Em**

Give it to you anyway

**C**

Even though it won t taste so sweet

[Pre-Chorus]

**Em**

I been trying trying

Hold my head up high

**C**

I been lying lying

Keeping it all inside

**Em**

Maybe I could trust you, yeah

**C**

Take another leaf, I m a book yeah yeah?

[Chorus]

**G**

I m done, I give up

**D**

I don t wanna pretend no more

**Em**

That s it, so what

**C**

I ve lost a friend before

**G**

Gonna say it like it is

**D**

No more wondering what if

That ain t the way you oughta live

**Em**

Cause I don t want you to love me

**C**

If you don t wanna love me for me

[Bridge]

**Em**

Sick of all the fighting

All the slamming of the door

**C**

The pain, the parents, too deep you know

**G**

Step back, step back

Can you see it through my eyes?

**D**

I know, I know

Maybe a surprise

**Em**

Don t wanna be perceived for something that I m not

**C**

Just wanna be accepted for the little that I got

**G**

If you could see me now in my glass house

**D**

Not ready to let you in

[Chorus]

**G**

I m done, I give up

**D**

I don t wanna pretend no more

**Em**

That s it, so what

**C**

I ve lost a friend before

**G**

Gonna say it like it is

**D**

No more wondering what if

That ain't the way you oughta live

**Em**

Cause I don't want you to love me

**C**

If you don't wanna love me for me

**G**

**D**

Cause I don't want you to love me

**Em**

**C**

If you don't want love me for me

**G**
