B / F# / C#m / E

B

I woke up this morning

F#

Your pillowcase I was holding

C#m E

I was only dreaming it was you

B

I tried my best to let it go

F#

Something wouldn't let me though

C#m E

I might have been pretending but it's all I can do

G#m

I've tried wishing on stars

D#m

closing my eyes so hard

E F#

made deals, made vows, tried screaming out

B F# C#m

Oh Baby come home

E F#

I can't go on without you here with me

B F# C#m

Oh Baby come Home

E F#

the pain gets too strong without you I'm too weak

E G#m F#

but nothing I do, Brings you back to me

B / F# / C#m / E

It's getting harder every single day

always thinking that I see your face

C#m E

I feel you near, I hear your name everywhere I go

B

But when I realize it's in my head

F#

it breaks my heart once again

it takes some time before it sinks in then I lose control
