F#

it breaks my heart once again

```
Baby Come Home
Chester See
B / F# / C#m / E
I woke up this morning
Your pillowcase I was holding
I was only dreaming it was you
В
I tried my best to let it go
F#
Something wouldn t let me though
I might have been pretending but it s all I can do
G#m
I ve tried wishing on stars
D#m
closing my eyes so hard
                 F#
made deals, made vows, tried screaming out
B F#
             C#m
Oh Baby come home
                          F#
          E
I can t go on without you here with me
   F#
            C#m
В
Oh Baby come Home
                                      F#
the pain gets too strong without you I m too weak
              G#m
                             F#
but nothing I do, Brings you back to me
B / F# / C#m / E
It s getting harder every single day
always thinking that I see your face
I feel you near, I hear your name everywhere I go
But when I realize it s in my head
```
