

Black Hole Sun
Chris Cornell

Chris Cornell has a video of him sitting on a stool with a Guitar and a Mic

[Verse]

G **A#**
In my eyes, indisposed
F **Em**
In disguise as no one knows
D# **D**
Hides the face, lies the snake
G **F** **G#**
The sun in my disgrace
G **A#**
Boiling heat, summer stench
F **Em**
Neath the black the sky looks dead
D# **D**
Call my name through the cream
G **F** **G#**
And I ll hear you scream again

[Chorus]

D#
Black hole sun
D
Won t you come
G **F** **G#**
And wash away the rain
D#
Black hole sun
D
Won t you come
G **D**
Won t you come Won t you come

[Verse]

G **A#**
Stuttering, cold and damp
F **Em**
Steal the warm wind tired friend
D# **D**
Times are gone for honest men
G **F** **G#**

And sometimes far too long for snakes

In my shoes, a walking sleep

And my youth I pray to keep
