Chris de Burgh - Have A Care  
-----

**Em** **Em**  
With the voices getting nearer I knew that I had to hide,  
**Am** **B**  
I got up behind a coffin, then I saw who was inside,  
**Em** **G**  
By the skin and bones of Blackbeard I lay there in the dark,  
**Am** **B**  
T was then I heard a whisper above the beating of my heart

**Em**  
Have a care, have a care,  
**C** **G** **D** **C** **D**  
T was evilly come by and no good will you find there,  
**Em**  
Have a care, have a care,  
**C** **G** **D** **C** **D** **Em**  
T was evilly stolen, only pain and sorrow there - have a care!

**Em** **Bm**  
So t was from the world of smugglers that I hid myself that night,  
**Am** **B**  
And when they left I opened up the coffin for a look inside,  
**Em** **G**  
But instead of Blackbeard s diamonds, in the locket at his heart,  
**Am** **B**  
Only verses from the Bible and a voice came from the dark

**Em**  
Have a care, have a care,  
**C** **G** **D** **C** **D**  
T was evilly come by and no good will you find there,  
**Em**  
Have a care, have a care,  
**C** **G** **D** **C** **D** **Em**  
T was evilly stolen, only pain and sorrow there - have a care!

Lock him in the vault so he can t get out boys,

Lock him in the vault so he can t get out boys, early in the morning!
