Intro: (C# A F#)

(C# A F#)
I keep listening, very quietly.
You re discussing, your philosophy.
There s a long list, of what s wrong with me.
And you go on talking endlessly.... now

(C# A F#)
What s the problem?
What s the question?
What s the answer?
Where s this heading?

(C# A F#)
You keep talking.
Where s it going?
If there s an answer I don t know it...

|R (C# A F#)
|E Please

|Ã You re killing me with all these questions.
|O

(C# A F#)
I ve been trying to get along with you.
Doesn t matter what I try to do.
Once you start in
there s no stopping you... now

(C# A F#)
What s the problem?
What s the question?
What s the answer?
Where s this heading?

(C# A F#)
You keep talking.
Where s it going?
If there s an answer I don t know it...
