

Run From Your Memory
Chris Knight

Intro: **G** (hammer from 2nd to 3rd fret on bass E-string)

G **D** **G** **C**
You should've kept the diamond ring, I gave it to you for free
G **D** **C**
Now I don't need no souvenirs after what you've done to me
G **D** **G** **C**
It's just a little old shiny stone, but it sure does slow me down
G **D** **G**
So I'm gonna throw it off the nearest bridge and then I'll leave this town

G **D** **G** **C**
There's nothing left of this love affair, that I really need
G **D** **C**
I guess I'll throw out everything except your memory
G **D** **G** **C**
Cause I can drive this beat-up truck from here to Timbuktu
G **D** **G**
Lay down flat on a bed of nails and I'd still dream of you

C **D** **Em**
Cause I can run from your memory but I can't hide
C **G** **D** **Dsus4**
Can't drown it down by the river side
C **D** **Em** **C**
The further I go, the harder we collide
G **D** **G**
I can run from your memory but I can't hide

Interlude (**C D C G D C**)

G **D** **G** **C**
Well I have hallucinations, they hit me from the blue
G **D** **C**
Where you've still got your diamond ring, and I've still got you
G **D** **G** **C**
I might as well just give it up, cause the damage has been done
G **D** **G**
You'd drive me crazy anyway, if I stay or if I run

C **D** **Em**
Cause I can run from your memory but I can't hide
C **G** **D** **Dsus4**
Can't drown it down by the river side
C **D** **Em** **C**
The further I go, the harder we collide
