

Looking For The Summer
Chris Rea

Bm

Look deep into the April face

G7

A change is clearly taking place

Em F# Bm

Looking for the summer

Bm

The eyes take on a certain gaze

G7

And leave behind the springtime days

Em F# Bm

Go looking for the summer

D A F#

This ain't no game of kiss and tell

Bm G

The implications how you know so well

Em A Bm

Go looking for the summer

Bm

The time has come and they must go

G7

To play the passion out that haunts you so

Em F# Bm

Looking for the summer

Bm

Remember love how it was the same

G7

We scratched and hurt each others growing pains

Em F# Bm

We were looking for the summer

D A F#

And still I stand this very day

Bm G

With a burning wish to fly away

Em A Bm

I'm still looking, looking for the summer
