YOUR WARM AND TENDER LOVE by Chris Rea

Album: The Road To Hell

Intro: **D F G D**

Dm F G Dm
I was lost in the deep and darkest night
Dm F G D
No direction not a single hope in sight
D
When I saw a fire burning brightly through
G
the storm that raged above
F G D
In the shadows of your warm and tender love

I was a stranger to the land of life around
In constant danger being hurt by what I found
And of hurting what I treasured most
Foolish eagle never dove
Til I fell upon your warm and tender love
In the shadows of your warm and tender love

Now I gaze in peace at the lonely sky
That is raging high above
Safe in the shadows of your warm and tender, tender love
In the shadows of your warm and tender love
