D

Cause I know that it's true

{Chorus}

Could you really love me

Could you really show me the way

Could I really love you

Say could I stand up and say

Well that you are my lady

And in my heart you will stay

So won't you be my baby

{Verse}

I catch the slightest movement in the curtain as you enter

And you come into my view

And quietly you kiss me

Yeah my touch you've been missing

I can feel that in you

There's no need to worry

Yeah I'm not in a hurry

To spend my life with you

And babe since I met ya

My eyes have been open to the light that's around you

{Chorus}

Could you really love me

Could you really show me the way

Could I really love you

Could I stand up and say

Well that you are my lady

And in my heart you will stay

So won't you be my baby

Yeah yeah
