Captured Chris Tomlin Ε I heard Your echo in the canyon, upon the timberline A/F# You said these mountains were Your invention And so was this heart of mine Е I heard You whisper on the water, there on the mighty sea A/F# You spoke of love deep as the ocean When You spoke of Your love for me I am loved by the Father I am loved by the Son Α It is love that has captured Е The heart of this wayward one I heard Your laughter in the sunrise, amidst the morning birds A/F# A song of freedom for all to hear it And You sang me every word Ε I heard You singing in the silence, a simple melody A/F# Words of love, O I can hear it

My Father is very fond of me
