

**Into The Bright Lights**  
**Chris Trapper**

**C**

Up and away we set off

**F7M**

Secretly scared we d get lost

**Am**

**G4**

Up in the clouds, over the town

**F7M**

Beyond the wall

**C**

Some of us knew we might fall

**F7M**

Under the weight of it all

**Am**

**G4**

And though we d been warned of the oncoming storms

**F7M**

Still we stood tall

**C**

Soar from the moonlight

**F7M**

Straight to the sunrise

**Am**

This will be our time

**F7M**

To free-fall and nosedive

**C**

Out of the black night

**F7M**

Into the bright lights

**Am**

With the whole world in our sight

**F7M**

Like a miniature paradise

**C**

My shadow is cast on the ground

**F7M**

But I m flying too fast to look down

**Am**

**G4**

At the rooftops and trees, and my family

**F7M**

Waving at me

**C**

Soar from the moonlight

**F7M**

Straight to the sunrise

**Am**

This will be our time

**F7M**

To free-fall and nosedive

**C**

Out of the black night

**F7M**

Into the bright lights

**Am**

With the whole world in our sight

**F7M**

Like a miniature paradise
