Funny I always found it easier to play this on one string like:

```

G|-----|
D|-----|
A|-----|
E|-0-0-12--0-0-7--0-0-8--0-0-5-0-3-2-3--|

```

Playing to the live version on The Heretics alive this was fine, but playing along to the ver. on SD&JC I have to tune the E-string up a tone(ie Tune the E-string to F#).

The guitar is then something like:

```

E(XII)  B(VII) C(VIII)  A(V)  G  F# G(III)
/ / / / / / / / / /
E(XII)  B(VII) C(VIII)  A(V)  G(XV)
/ / / / / / / / /

```

Where E(XII) is E played as an F-barre chord at 12th fret. Again to play along to the record add a note to each of these(2 frets) ie F# C# D B A Ab A
