

Birds Of Prey  
Christina Aguilera

Capo 2

**Am** **E**  
Suddenly lost inside a fantasy  
**Am** **E**  
Everything not quite what it seems to be  
**Am** **E**  
Slipping and falling through the looking glass  
**Am** **E**  
Catching a glimpse at all that lies behind the masks

**F** **Am**  
You disappear with the dawn  
**F** **Am**  
You only see what you want

**E** **Am**  
When you are out with the birds of prey  
**E** **Am**  
When you are out with the birds of prey

They watch and they feed  
**E**  
They take what they need  
  
They bite as you bleed  
**Am**  
The birds of prey

**Am** **E**  
Taking the blue pill only made you cry  
**Am** **E**  
And all that the red pill did was make you forget why  
**F** **Am**  
There is no right, there s no wrong  
**F** **Am**  
You only see what you want

**E** **Am**  
When you are out with the birds of prey

They watch and they feed

**E**

They take what they need

They bite as you bleed

**Am**

The birds of prey

They watch and they feed

**E**

They take what they need

They bite as you bleed

**Am**

The birds of prey

They watch and they feed

**E**

They take what they need

They bite as you bleed

**Am**

The birds of prey

**F** **Am**

You disappear with the dawn

**F** **Am**

You only see what you want

**F** **Am**

There is no right, there's no wrong

**F** **Am**

You only see what you want

**E** **Am**

When you're out with the birds of prey

**E** **Am**

When you're out with the birds of prey

**E** **Am**

When you're out with the birds of prey

**E** **Am**

When you're out with the birds of prey

**E** **Am**

When you're out with the birds of prey
