But nothing else hurts like you do

Who knew that love was so cruel (Yeah yeah yeah)
And I, Waited and waited so long
For someone to never come home
It s my fault to think you ll be true (yeah yeah)
I m just a fool
For holding on to something that
Is never ever gonna come back
I can t accept that it s lost
I should have let it go, Held my tongue
Kept my big mouth shut
Cause now everything is just wrong
I m thrown
I m just a fool
A fool for you
I m just a fool
I had my heart set on you
But nothing else hurts like you do
Who knew that love was so cruel (Yeah yeah yeah)
And I, Waited and waited so long
For someone to never come home
It s my fault to think you ll be true (yeah yeah)
I m just a fool
I m just a fool
I m just a fool
It s my fault to think you ll be true (yeah yeah)
I m just a fool
