

Show Me How You Burlesque
Christina Aguilera

Hey

I usually play the chords as bar chords all on the E string.

Also, when the saxophone plays instead of staying on the B as it says below you can slide from A to B.

If you have any recommendations feel free to comment

[Verse 1]

Underneath the city lights
There is a world few know about
Where rules dont apply, no
And you cant keep a good girl down

(B A# A G#)

[Verse 2]

B

She going through the club looking for a good time
Gonna make that
Shake that
Money on the dime

B

Shell be working it just fine
Up on the table

B

Shell be dancing all night (hee-eeey)
Babydoll now come alive

B

Under the spotlight
All the girls wanna fall in line

[Pre-Chorus]
