

One Wish

Christina Perri

Capo 4

**D**

If I had one wish I'd make us

**Bm**

drift away far from this place

**G**

And you know better than

**A**

me that I like it my

**B7**

way

**D**

Since the circumstance is weak,

**Bm**

I know that you are swallowing your pride

**A**

When you look at me

**B7**

**G**

All I'm trying to

**A**

say is that

**D**

whatever you do it's

**G**

okay. Baby I'll

**A**

stay

**B7**

**D**

I am not a fool when it comes

**Bm**

straight down to your p's and q's

**G**

And mister

**A**

I think you have me all wrong

**B7**

**D**

Cause at the end of every day

**Bm**

I like to lay my head your way

**G**

And listen to your

**A**

heart sing

**D**

**G**

All I m trying to say

Is that

**A**

whatever you do it s

**D**

okay Cause baby I ll

**A**

stay with

**G**

you

**A**

I ll stay with you

**D**
