**A** **Ax**  
I remember learning how to make a quick hundred bucks

**C** **Bm** **D** **A**  
Sleeping in the back of a pickup truck

I remember looking through the barrel of a loaded gun  
Texas cops and cooking drugs

But look at us in New York City  
Everybody s listening to me.  
Here we are in New York City  
Rock and roll in New York City - alright!

I remember begging my best friend for my life  
He caught me and his wife with a pocket knife  
I remember getting picked up for a petty crime  
And getting locked up for holding a dime

But look at us in New York City  
Everybody s listening to me.  
Here we are in New York City  
Rock and roll in New York City
