Verse 1:

C **Am**
Well do you pray, Do you fall
F **C**
On your knees when everything goes wrong
F **C**
Go back to the word in the good book you heard
G **C**
That will save you a place somewhere

C **Am**
Or do you sing from your soul
F **C**
When you feel that calm before the storm
F **C**
Bleed out your throat or sound just like a bird
G **C**
when she wakes from the light of first morn

Chorus:

F **C**
Brother don t doubt everything
G **Am**
Well we don t even have that power
F **C**
Sister don t heed the battle we breed
G **Am**
Opon those waking hours
F **C**
I want to dance like nobody s watching
G **Am**
Oh and sing like nobody cares
F **C**
Climb to the top of the mountains we see
G **C**
To find peace and to die up there

Verse 2:

C **Am**
Well do you work, do you slave
F **C**
Breaking your back everyday

F **C**
Whether for food or whether for pay
G **C**
Or just for you babies sake

C **Am**
Or do you die belly up and cry
F **C**
When you feel like there s nothing worth trying
F **C**
Down on you luck and hopeless for faith
G **C**
That tables will turn one day

Chorus:

F **C**
Brother don t doubt everything
G **Am**
Well we don t even have that power
F **C**
Sister don t heed the battle we breed
G **Am**
Opon those waking hours
F **C**
I want to dance like nobody s watching
G **Am**
Oh and sing like nobody cares
F **C**
Climb to the top of the mountains we see
G **C**
To find peace and to die up there

F **C**
Climb to the top of the mountains we see
G(let ring) **C**
To find peace and to die up there
