Verse 1:
                 Am
Well do you pray, Do you fall
On your knees when everything goes wrong
                    C
Go back to the word in the good book you heard
That will save you a place somewhere
C
               Am
Or do you sing from your soul
When you feel that calm before the storm
Bleed out your throat or sound just like a bird
when she wakes from the light of first morn
Chorus:
Brother don t doubt everything
Well we don t even have that power
Sister don t heed the battle we breed
Opon those waking hours
I want to dance like nobody s watching
Oh and sing like nobody cares
Climb to the top of the mountains we see
To find peace and to die up there
Verse 2:
Well do you work, do you slave
