

Lungs
CHVRCHES

F

how long, til you leave it
you should know that we re alone this time
keep yourself a secret
you should know that

Bb

i will sell you a future you don t want
like i did last time, i won t go slow
all the things you tell yourself
offer no resolution

F

you know that this will break us
but you push us as far as we can go
taking every chance to find solutions

Bb

that never make anyone happy
we are done this time, you don t owe me
take a final took at me, take it and drink it in

F

breathe through me, fill up your lungs with us

Bb

i will keep everything you give me
til the time, we let go

F

breathe through me fill up your lungs with us

Bb

i will keep everything you give me
til the time, we let go

F

keep me in your eyeline
keep believing what you said before
i won t change direction, i will tell you

Bb

that everything s moving too slowly
just another lie, one more untruth
you won t ever see through me
you will still drink it in
