Wings
Cimorelli
Capo on 6th
[Intro] C G Dm F
I can be so negative sometimes
My own worst enemy sometimes
Even at my lowest low, you still had hope,
C
When I wanna quit, you won t let me
When I m falling down, you gon catch me,
You pick me up, yeah, you fix me up
Now I m on my way and I m strong enough to say
                     Am
You gave me wings, and taught me to fly
When I was out there on my own,
                                                      G
You gave me wings and brought me to life,
And now I need to know
                                        Am
If you wanna fly, cause I wanna fly (yeah)
Tell me you( re) down for touching the sky (yeah)
                                                             G
You and me, me and you, the higher, the better,
                                                          Am
 G
When we fly, we fly together, together, together, together, together
When we fly, we fly together.
I feel like a prisoner locked up,
The only key to set me free is your love,
Dm
You went and took a chance on me,
