as long as you love

```
Verse 2 (same as Verse 1)
       C G
               DG
you are standing here beside me now
           G
as i watch the children play
        G
             D
to those of us you left behind
you are never far away
       G
             D
even heaven cannot hold your heart
               G
for no boundaries love allows
             G
                                  Em
so little angel, spread those scarlet wings
                  D
as you whisper to me now
Chorus
       D
as long as you love
   C G
you will feel me in the sun
in the warming of the sun
i will be there
G D
as long as you love
   C
you will understand the rain
you must bless the falling rain
as long as you love
```
