Well at least can t you

G **Bm**

Look at me when I m speaking to you?

G **Bm**

Because there are things I ve got to say

G **Bm**

Well what was he sneaking to you

G **Bm**

When you thought I d looked away?

G **Bm**

I get it, I get it

G **Bm**

Now I understand just what you re playing

I get it, I get it

I guess there isn t any point delaying

C **D** **G** **Bm**

You would rather that I wasn t here

C **D** **G** **Bm**

You don t have to say a word, it s crystal clear

G **Bm**

You bought him presents with my money

That makes me feel just great, although

I ve got to say that it is kind of funny

That you could think I d never know

G **Bm**

I get it, I get it

It was just another way of saying

I get it, I get it

That you really didn t want me staying

C **D** **G** **Bm**

Oh I bet you just wish that I d disappear

You don t have to say a word, it s crystal clear

C **D**

Lying in my bed

G **D** **C**

You remember when

C **D**

It was you who said

G **D** **C**

That we d never be apart again

C **D**

But now the longer that I hang around

G **D** **C**

The more anxious that you get

C **D**

Oh it looks like Romeo has found

G **D** **C**

A nervous Juliet

C **D** **G** **Bm**

Because you would rather that I wasn t here

You don t have to say a word, it s crystal clear

Oh I bet you just wish that I d disappear

You don t have to say a word, it s crystal clear
