

Get Out

Circa Survive

When they play the acoustic version they slide the Am down the fretboard, though

it doesn't sound quite as nice with one guitar, in my opinion. I think the Am sounds best as a power chord because then you can let the high A ring. This is my first attempt at figuring out a song, so be nice. =]

Am **Gm** **F-Gm**
I can't get started from the part where I left off yesterday
Should've spent my time a little wiser
I sat alone guilty as sin waiting for words to come
Am **Bm** **C**
From out of my head still making sense to anyone

Am **Em**
I can't wait to understand the reason
I have yet to translate
C
Any meaning besides
Am
It's not worth it to try

Em
Get out [2x]

Am **Gm** **F**
Lock myself up in a room without a window just to see
If it was any easier to breathe I was wrong
Never underestimate the daylight
Am **Bm** **C**
There it's so much easier to breathe

Yeah!

Am **Em**
I can't wait to understand the reason
I have yet to translate
C
Any meaning besides
Am
It's not worth it to try

Em
Get out [2x]

E **E7**
Get out, get out

C

There s no meaning besides

Am

It s not worth it to try

Em

Get out [2x]

E

E7

Get out, get out
