Grace
City and Colour

 Throughout the whole song: cadd9, em7, G

beginning of the song and after chorus:
```
e|-3-3-3------3--8\7----
B|-------3--5-----------
G|---------------------  X6
D|---------------------
A|---------------------
E|---------------------
```

[**Cadd9**]   [**Em7**]   [**G**]
In better days I ve been known to listen
[**Cadd9**]   [**Em7**]   [**G**]
I go to waste all my time is missing
[**Cadd9**]   [**Em7**]
I m mapping out my ending,
[**G**]
it s never gonna happen now
[**Cadd9**]   [**Em7**]
These things are condescending
[**G**]
with everybody backing down

You pray to stars that can help you get by
And all at once you forget to try

I d go there if you let me,
they re never gonna find me now
My life is always empty
and in and out of doubt

CHORUS:
Your not coming back for me, these things they will never be
I m so used to being wrong, so put me where I belong

I ll get back to you,
God knows I try,
but I still lose
And I get back to you,
these days run by,
but I still lose...

```
e|-3-3-3------3--8\7----
B|-------3--5-----------
G|---------------------  X6
```

```
D|---------------------
A|---------------------
E|---------------------
```

Angels say they can make you suffer
They give and take like a vicious lover

When all this loses meaning,
You ll never want it back somehow
Awake but still I m dreaming
And never waking up

Alone...Where I m not alone
