Two Coins
City and Colour

capo 4

Em Cmaj7

[Verse]

Am7
Northwest is where I m headed,
                    C/G   Gadd4
Underneath the golden sky
      Am7
I m searching for a wisdom
                         C/G   Gadd4
That every man seeks to find
        Am7
I ve got wicked thoughts a brewin
                       C/G   Gadd4
Many evil deeds I ve done
      Am7
I m looking for a reason
                    C/G   Gadd4
For a reason not to run

[Chorus]

      Em
I ve always been dark
    D/F#   **Em(addC#)**
With light somewhere in the distance   2x

[Verse]

      Am7
I ve got no destination
                    C/G   Gadd4
No place to call my own
        Am7
I ll explore the constellations
                              C/G   Gadd4
Till I find the course I mean to hone
        Am7
But come fever or come famine
                    C/G   Gadd4
Come the biting winter cold

```
              Am7
Just put two coins upon my eyelids
                                 C/G       Gadd4
So I can pay the boatman s toll

[Chorus]

       Em
I ve always been dark
       D/F#                      Em(addC#)
With light somewhere in the distance     2x

[Bridge]

         Em
I ve been so unforgiving
D/F#               Em(addC#)
Stranded in old traditions

[Chorus]

       Em
I ve always been dark
       D/F#                      Em(addC#)
With light somewhere in the distance

D/F#   Em    C/G   2x

         Em
I ve always been dark
       D/F#                      Em(addC#)
With light somewhere in the distance
