

We Found Each Other In The Dark
City and Colour

Great song off of City and Colour's album Little Hell
The lyrics are probably off a bit but hopefully I got this just about 99%

C F C
I heard the church bells from afar
Am G F C
but we found each other in the dark
C F C
and when the smoke does finally pass
Am G F C
we will rise above all the ash
Am
cause we're gonna live
G
we're gonna live
F
we're gonna live
Am
we're gonna live
G
we're gonna live
F
we're gonna live
Am
we're gonna live
G
we're gonna live
F C
we're gonna live at last

C
so bright the flames burn in our hearts
Am G F C
that we found each other in the dark
C F C
like bees out in the wilderness
Am G F C
we are fighting to survive and come over this
Am
cause we're gonna live
G
we're gonna live
F
we're gonna live
Am

we re gonna live

G

we re gonna live

F

we re gonna live

Am

we re gonna live

G

we re gonna live

F

C

we re gonna live like the rest

(Keep playing **C**)

Am **C**

through the black starless water

C **Am**

and the cold lonely air

Am **C**

all the rough restless sea

C **Am**

the vessel in deep disrepair

Am **C**

and I swore they started singing

C **F** **C** **G**

but they wont rejoice

F

I can still hear your voice

C **F** **C**

And I heard the church bells from afar

Am **G** **F** **C**

But we found each other in the dark
