[Intro] **Am C/G F/C C/G Am**

Am C/G F/C
Where did we go wrong?
C/G Am
Will there be a future to look back from?
Am C/G F/C
Feels like God is long gone
C/G Am
From the creatures who created him
Am C/G F/C
We could give it all away
C/G Am
This machinery of violence
Am C/G F/C
Still we gather for a feast of praise
C/G Am
To the devouring mouth of war

Am
This is a fire
C/G
This is a revelation
F/C
Don't let it burn out
C/G
Don't let it fade away
Am
Let's run all the red lights
C/G
Make no promises
F/C
Live like young lovers
C/G Am
Who've never known heartache

Am C/G F/C
Between the dark and dawn
C/G Am
Kings are killing people in the streets
Am C/G F/C
Their ghosts are left to walk on
C/G Am
Through the nightmares of these bitter men
Am C/G F/C
Golden towers climb towards the sky
C/G Am

A sparkling palace of sin
Am **C/G** **F/C**
And still we act so surprised
 C/G **Am**
That we are so hollow

Am
