I thought I knew you, it only goes to show that I was wrong, so wrong
I see right through you, and everything we used to have is gone, it s all gone
You said you loved me, but did you mean a word of what you said, when you said
you re thinking of me, I m sure that someone else was in your bed, getting head

(With "intro")

I ll tell you what, love is just a four letter word
like it or not, love is just a four letter word

B G A E E E F#

You say it s over and treat me like you don t know who I am, who I am
I hope you know girl, that you ve turned me into a broken man, yes I am
and then you tell me, tell me that you ve found somebody new, well good for you
but do you really, think I care about the things you do, fuck both of you

(With "intro")

I ll tell you what, love is just a four letter word
like it or not, love is just a four letter word

B B

So now you ve left me, I bet that you could hardly even wait

A A

I used to love you, now you re just the girl I love to hate

B B

All I can say is, I wish I d listened to my own advice
