

Where Do I Fit In The Picture
Clay Walker

Well it looks like you finally made the front page

You always did look good in white

Hope you like the ring of your new name

The one he ll be givin tonight

All of this is news to me

I wondered why you never called

Guess that s the way it s meant to be

If you re gonna ride,

You gotta learn to fall

Where do I fit in the picture

Do I really fit at all

Or have I become a fixture

On an old forgotten wall

VERSE II: Same progression as first

Looks like I finally made the front page
You know you always said I would
Things are well here in room twenty eight
God I hope your doin good

There s a picture in my wallet
That I look at sometimes
And it sends chills through my bones
Long lost love, whatever you want to call it
But it just won t leave me alone

Repeat Chorus
