* = alternate between the regular triad and the slash chord
/ = slash chord (normal D triad with A as the bass note)

note: many small (virtually all?) intra-chord flourishes and single-note runs leading
into other chords use the notes on the second and fourth frets on the fourth string (E
and F#). In some cases, where a chord is labeled "D and D/A," a flourish involving the
above mentioned notes is actually called for. It varies on a case by case basis.

***D** and **D/A**   **A**   **G**   ***D** and **D**/**A**
I was searching for something I could not describe

***D** and **D/A**   **A**   **G**   ***D** and **D/A**
I opened my   heart and I   let Jesus in

***D** and **D/A**   **A**   **G**   ***D** and **D/A**
With the promise that   I would be free of my sins

But I only felt guilty that he died on the cross
