The Sound of German Hip Hop

I tabbed it while listening to an acoustic version of the song, so I don't know whether the chords also apply to the album version. But at least it's easy as pie to play...

Em **G** **D**
I woke up to the sound of German hip hop in my head
Am **C** **G** **D**
A great unholy clatter quickly filling me with dread
Em **G** **D**
I wondered then if silence had forever disappeared
 Am **C** **G** **D**
What, with everybody yelling the end was finally here

Instrumental (I didn't yet tab the solo, sorry):

Em - G - D
Am - C - G - D

Dm **F** **C** **G**
I scrambled for the television, desperate for its light
Dm **F** **C** **G**
Hoping that my favorite stars could stop this endless night
Am **C** **Am** **G**
I waited for instructions, I waited for a sign
C **A7** **D**
I listened very carefully when told just what to buy

and so on...
