**E**           **G#m**           **Esus2**           **E/F#**           **F#**

[tab]**B**                           **E/B**  
I ve been bound to leave you[/tab]  
[tab]**D#m**                           **E**  
We ve known that for a while[/tab]  
[tab]**G#m**                           **G#m/C#**  
I m sure it s something I can t do[/tab]  
[tab]                           **E/C#**                           **F#**  
If I can t leave you with a smile[/tab]  
[tab]                           **B**                           **E/B**  
I don t know how far I ll have to go[/tab]  
[tab]                           **G#m**                           **C#m7**  
Till I m sure those eyes won t cry[/tab]  
[tab]                           **E/C#**                           **G#m**  
And in my mind I ve left enough to know[/tab]  
[tab]                           **C#m7**  
That I can t leave you[/tab]  
[tab]**F#**                           **B**  
With a bad goodbye[/tab]

chorus:

[tab]           **E/B**                           **G#m**  
Goodbye, easier said than done[/tab]  
[tab]           **C#m**                           **F#**  
Goodbye, there s no good when you re the one[/tab]  
[tab]                           **D#m7**                           **G#m**  
Whose goodbye you swore would never come[/tab]  
[tab]           **C#m**                           **E/C#**                           **F#**  
And in my goodbye you re finding none[/tab]

I m still bound to leave you  
I surely don t know how  
My heart won t let me put you through  
What my mind said should happen now  
I don t know where we ll go from here

There may be no way to fly  
And the cloud I m in just makes it all too clear  
That I can t leave you  
With a bad goodbye

repeat chorus

How can we be so far between  
Where we are and one more try  
And any way I look, I ve only seen  
That I can t leave you  
With a bad goodbye

This particular song is more likely to be played on piano, but since  
I found  
the chords anyway, I post them here.

Esus2 - 024100  
E/F# - 222100  
**E/B** - X22100  
**E/C#** - X42100 (or just play **C#m7**)

This should do it  
byeBye
