                                   E7no3

[turnaround]
If we d known ten years ago today would be ten years from now
Would we spend tomorrow s yesterdays and make it last somehow
Or lead the cheers in someone else s game and never learn to play
And see the rules of thumb are all the same that measure every day
   C#maj7
                   C#maj7
                               C
The grass is green on both sides of the hill, there s no time to kill

                               Bb
                                                  Eb(9)/Bb
No time to kill, even I ve said it, probably always will
              Eb(9)/Bb
                                Bb
                                                    Eb(9)/Bb
But I can look ahead and see that time ain t standin still
                       Bb(9)/F
                                          F

```

No time to kill but time to change the kind of hurry I ve been in F Bb(9)/F F Bb(9)/F

Quit this work and worry lookin back at where I ve been C#maj7 C C

If you don t look ahead nobody will, there s no time to kill F Bb(9)/F F Bb(9)/F

[turnaround]

If we had an hourglass to watch each one go by
Or a bell to mark each one to pass, we d see just how they fly
Would we escalate the value to be worth its weight in gold
Or would we never know the fortunes that we had till we grow old
And do we just keep killin time until there s no time to kill

No time to kill, even I ve said it, probably always will But I can look ahead and see that time ain t standin still No time to kill but time to change the kind of hurry I ve been in Quit this work and worry lookin back at where I ve been If you don t look ahead nobody will, there s no time to kill

No time to kill, even I ve said it, probably always will But I can look ahead and see that time ain t standin still No time to kill but time to change the kind of hurry I ve been in Quit this work and worry lookin back at where I ve been If you don t look ahead nobody will, there s no time to kill
